- 6 Magic Eye indicator displays state of charge

DELIVERY PROMISE

We aim to deliver in full, on time, every time. We appreciate that fleet downtime is not an option, this is reflected in our improved service promise.

NATIONWIDE SUPPORT NETWORK

Extensive supply network ensures exceptional service.

FULLY MAINTAINED

As part of our quality and service promise, we commit to keeping your batteries fully maintained so you can be assured that the battery that you receive is fully charged and in excellent condition.

The NSW Scrap Metal Industry Act now makes it an offence to trade used batteries for cash sales. This will take into effect to regulate criminal activity affecting the scrap metal industry. The VIC Government has also announced similar legislation and we can expect other states to follow. Breach of this law may result in up to \$11,000 in fines.

AGCO Parts' partnership with Enirgi Power Storage offers Australia's only EPA ISO14001 compliant used battery collection network. Their modern facilities recycle 97% of used lead acid batteries to the highest standard, whilst ensuring peace of mind.

Simply return your used battery to your dealer, and we will ensure safe and compliant disposal. Please speak to your dealer to find out more.

AGCO Parts' new partnership with Enirgi Power Storage batteries aims at supplying you with the very best energy options for every task.

BATTERIES
